FERNO

FERNO PEGASUS Trolley

Quality, durability and strength… combined with unbeatable ease of use

By no means does every ambulance trolley combine optimum quality, durability and reliability and still fewer are equally suited for use on either ramped or tail-lift vehicles.

Ferno Pegasus accomplishes all of this with ease as it has to be one of the most versatile trolleys available offering exceptional simplicity of use.

- **Smoothly manoeuvrable** – extendable push/pull handles, optional folding push-poles and four pedal operated wheel/castor locks
- **Protects the patient** – Combining the use of a pressure-reducing mattress, a comprehensive harness and strap system, and moulded trolley cotsides
- **Easy to use with PTS vehicles** – standard drop-down foot end; fully compatible with Ferno lock & load system
- **Access using four-occupant size lifts** – both the head-end and foot-end fold to shorten the trolley to be able to fit into confined spaces
- **Prevent static shock** – anti-static wheels protect against electro-magnetic shock
- **Easy to clean and maintain** – removable headrest, VELCRO®-free fully welded mattress and tracker system to aid maintenance schedules
- **Versatility** – the trolley is supplied as standard with all the main bed features that are required to treat a critical patient
- **Includes easy-use two-part mechanical lock** – supplied with floor fixings
- **Enhanced safety** – tested and certified to EN 1789, CEN compliant

EN 1789 COMPLIANT 10g CERTIFIED

LOCK LOAD

INTEGRATED INFECTION CONTROL

Pegasus with optional folding push-poles at foot-end
